

**ANNUAL REMUNERATION REPORT 2021/22  
TO THE BOARD OF GOVERNORS**

**INTRODUCTION**

**1. Terms of reference**

The Committee's terms of reference can be found below. During 2020/21 Senior Post Holders (SPH) were: the Vice Chancellor; and the Registrar. The Remuneration Review Procedure for the Vice Chancellor can be found at pages 7-9 below, and for the SPHs/Clerk/Deputy at pages 10-11.

**2. Remuneration Committee Membership (until July 2022)**

- Sue Brownlow ©, Deputy Chair of the Board of Governors;
- David Noyce, Chair of the Board of Governors; and
- Mark Greaves, Governor.

In attendance with no voting rights were also:

- Harriet Moore, Student Governor;
- Tom Archer, Staff Governor.

The Vice Chancellor is **not** a member of the Remuneration Committee.

**3. Remuneration Committee Meetings**

The Committee met twice in 2021/22: 19 October 2021; and 28 June 2022.

All meetings were quorate. There were apologies from Harriet Moore, on 19 October 2021, and there were no apologies on 28 June 2022.

**APPROACH TO REMUNERATION**

4. The basic principles can be found at paragraph five of the Remuneration Review Procedure for the Vice Chancellor and Chief Executive.

5. The type of factors used in considering reward proposals for senior post holders can be found at paragraphs 6-11 of the Remuneration Review Procedure for the Vice Chancellor and Chief Executive.

6. The data that supports this approach is drawn from:

- a) Benchmark institutions financial statements and annual remuneration reports ie Leeds Arts University; Norwich University of the Arts; Ravensbourne University London; Arts University Bournemouth; Falmouth University; University for the Creative Arts; and University of the Arts, London;
- b) the latest Office for Students' Senior Staff [Pay Report](#) 2019/20; and
- c) internal analysis of salary distributions.

7. The University introduced a HERA role analysis scheme in 2017-18. All posts including those of SPHs (excluding the Vice Chancellor) were evaluated against the role and remit of the post (not the person). All posts were scored using a standardised, approved matrix. In introducing HERA at the University it was possible to migrate all staff to the nationally recognised single pay spine. All staff migrated to the new single pay spine, effective from 1 August 2018. Pay Awards are based on successful performance and the University uses an Annual Performance Appraisal scheme to monitor those staff who are entitled to have a salary review (provided they do not exceed their current salary banding).

8. Salary progression is subject to an annual Performance Appraisal, with the achievement of meeting expectations. Any increases are subject to individual performance and are normally applied on the 1 August of that year, provided that the individual has satisfactorily completed a minimum of six months' service in post, at the previous salary point".

9. All staff (excluding the Vice Chancellor, who is subject to a separate arrangement) would receive an annual inflation uplift to their base pay, which is approved by the Board. This inflation uplift is normally agreed in November, backdated to August but is primarily linked to student numbers and affordability. However, to maintain our competitiveness on using the Single Pay spine it would be difficult not to award the nationally agreed inflation uplift as the University would then not be consistent with the Higher Education sector.

10. The approach used by the Committee in benchmarking positions offered within comparator institutions can be found at paragraphs 12-16 of the Remuneration Review Procedure for the Vice Chancellor and Chief Executive.

## **PAY RATIO**

11. During 2021/22, the Vice Chancellor & Chief Executive's basic salary (and total remuneration) was 4.4 times the median pay salary (and total remuneration) of staff, where the median pay is calculated on a full-time equivalent basis for the salaries paid by the provider to its staff (2021: 5.7 times; 2020: 6.6 times; and 2019: 6.4 times). This data has only been collected since 2018/19.

12. The Vice Chancellor & Chief Executive's total remuneration was 4.8 the median total remuneration of staff, where the median total remuneration was calculated on a full-time equivalent basis for the salaries paid by the provider to its staff (2021: 6 times; and 2020: 7.3 times).

### Remuneration Review Procedure - Vice Chancellor and Chief Executive

#### Introduction

1. This procedure has been drawn up with due reference to the regulatory framework<sup>1</sup> and also good practice and guidance<sup>2</sup>.
2. The Articles of Government specify that the employment and remuneration of Senior Post Holders and of the Clerk and Deputy Clerk are properly the domain of the Board of Governors, which is responsible for all decisions including the appointment, grading, suspension, dismissal and determination of pay and conditions of service for those posts.
3. The Board has established a Remuneration Committee in line with the Committee of University Chairs (CUC) Higher Education (HE) Code of Governance (2.9 & 2.10). "Remuneration" refers to the full range of the reward package an individual receives, including pay, benefits (including pension contributions of all kinds) allowances and incentives/rewards.
4. The Board has delegated to the Remuneration Committee (the Committee) the responsibility for the annual review of the Vice Chancellor's salary, and for making recommendations thereafter to the Board.
5. The Board adopted the Higher Education Senior Staff Remuneration Code (June 2018) in July 2018 (updated in November 2021).

#### Basic principles

6. The following basic principles will be followed in this pay review process:
  - the process should be agreed by all parties;
  - the process must be robust and rational;
  - the outcomes must be affordable;
  - all decisions taken must be transparent.

In the process of review, the Committee will take account of the following:

- perceptions of University staff - being mindful of the general level of wage and salary settlements being received by staff and how any proposed increase for the Vice Chancellor might be viewed;
- proportionality - being fair and consistent - within the University and within the HE sector;
- performance - ensuring the salary paid works for the University and its students;
- recruitment and retention - keeping valued staff within the University;

- avoidance of excessive reward - the importance, for 'public institutions' of being able to evidence that the level of remuneration is not excessive and the public interest is safeguarded.

## **Process**

7. The Committee understands the need to take account of a range of information.
8. This will include evidence of performance against agreed objectives in the form of a report from the Chair of the Board based on the annual performance development review process.
9. The Committee has indicated that, although the performance development review should not be directly linked to pay reviews, personal performance indicators, which evidence progress against the University's strategic aims, will be considered in arriving at recommendations to the Board.
10. The Committee will consult benchmark data on equivalent posts in similar institutions (see paragraphs 12-14 below).
11. The Committee will also take account of anticipated levels of pay settlements for all staff in the sector.

## **Comparative Data**

12. Comparative data offers a benchmark of the rewards paid to similar roles in comparable institutions, e.g. Norwich University of the Arts, Arts University Bournemouth; Falmouth University, Leeds Arts University. and Ravensbourne University London.
13. The availability of useful comparative data for benchmarking pay awards is limited. Data for Vice Chancellor salaries is based on published Financial Statements/annual remuneration reports, and therefore when applied is two years out of date. It may also be useful to look locally for comparisons with similar sized organisations out of sector to compare pay scales, and other comparable sectors.
14. The Committee should routinely have available the following information to assist salary reviews:
  - the latest Office for Students' Senior Staff [Pay Report](#) 2019/20
  - the Guild HE survey of Vice Chancellors' salaries; UCEA's senior staff remuneration survey;
  - the annual survey undertaken by the Times Higher Education; (last carried out in [2018](#)) and
  - actual or forecast national pay settlements for all staff in the sector for the forthcoming 12 months, and percentage increases on offer to other members of staff who are not Senior Post Holders.

## **Comparative data risk**

15. The use of benchmark data is expected to inform the level of remuneration, rather than be the sole basis on which the Committee makes a decision.

16. The UK Corporate Governance Code warns that a Remuneration Committee should use such comparisons with caution, in view of the risk of an upward ratchet of remuneration levels with no corresponding improvement in [University] and individual performance’.

### **Reporting to the Board of Governors**

17. It is important that reports from the Committee to the Board provide sufficient detail of its deliberations to enable governors to assure themselves fully that a rigorous, fair and defensible process had taken place, since overall responsibility for this rests with the Board and not the Committee.
18. The University must publish a readily accessible annual statement, based on an annual report to its Board of Governors, the parameters for which are set out in the Remuneration Code.

## **ARTS UNIVERSITY PLYMOUTH**

### **SENIOR POST HOLDERS, CLERK AND DEPUTY CLERKS' REMUNERATION REVIEW PROCEDURE**

#### **Introduction**

1. The Articles of Government specify that the employment and remuneration of senior post holders, the Clerk and Deputy Clerk are properly the domain of the Board of Governors, which is responsible for all decisions including the appointment, grading, suspension, dismissal and determination of pay and conditions of service for such posts.
2. The Board has delegated to the Remuneration Committee (the Committee) the responsibility for the annual review of Senior Post-Holders' and the Clerk and Deputy Clerks' salaries, and for making recommendations thereafter to the Board.
3. The SPHs at this time are: the Vice Chancellor; and the Registrar.
4. The Vice Chancellor's remuneration review is subject to a separate procedure.

#### **Some basic principles**

5. It is proposed that there are key points and basic principles which should feature in this pay review process:
  - the process should be agreed by all parties;
  - the process must be robust and rational;
  - outcomes should be justifiable and clearly recorded and communicated;
  - any outcomes must be affordable.
  - any changes to bandings or salary reviews will be subject to the outcomes of the University's recognised HERA role analysis process.

#### **The Process**

6. The Committee will take account of anticipated levels of pay settlements for all staff in the sector. Any increases are subject to individual performance and are normally applied on the 1 August of that year, provided that the individual has satisfactorily completed a minimum of six months' service in post, at the previous salary point".
7. If SPH performance was strong a salary review, linked to the University's Performance Appraisal outcomes, could be made in line with University procedure by way of recommendation from the the Vice Chancellor to the Committee, providing the post is not at the maximum of the banding, if the SPH is at the top of the banding, they will receive the annual University pay review negotiated by UCEA.
8. If the Clerk's performance was strong, a salary review, linked to the University's Performance Appraisal outcomes, could be made in line with University procedure by way of recommendation from the Chair of the Board of Governors to the Committee, providing the post is not at the maximum of the banding, if the Clerk is at the top of the banding, they will receive the annual University pay review negotiated by UCEA.

9. If the Deputy Clerk's performance was strong, a salary review, linked to the University's Performance Appraisal outcomes, could be made in line with University procedure by way of recommendation from the Clerk to the Committee, providing the post is not at the maximum of the banding, if the Deputy Clerk is at the top of the banding, they will receive the annual University pay review negotiated by UCEA.

### **Financial Sustainability**

10. After HERA review, SPHs, Clerk and Deputy Clerk were on an appropriately benchmarked management pay spine.
11. Given the current environment and financial position of the University, SPHs, the Clerk and Deputy Clerks' pay award will be on the same basis as the overall University pay award.
